

# CHOOSE A PACKAGE AND BICYCLE AROUND ÅLAND

**Discover our comprehensive bicycle packages! The trip to Åland is included, as well as a bicycle with equipment. We've also marked out the route and booked your accommodation. So what's left for you to do?**

## - Simply pedal and enjoy!

Rocky outcrops in the centre of town, rare flowers along the verge and the sea just around the next bend in the road. The countryside of Åland offers staggering views. Well-preserved historic buildings, red farms with ornate verandas, weathervanes and grazing cows, the countryside and the region's history are all easily discovered from the saddle. And it's a green way to travel. Pedal along at your own relaxed pace with plenty of beautiful spots for a picnic along the way. Distances on Åland are short, there's no need for a mammoth trek in a single day and not much of the route is uphill. These days there are also designated cycle paths running along many of the main roads.

To make things easy for you we've put together some packages with ready-made routes and booked accommodation. Stick to the main island or explore the archipelago in the east. If you're venturing off the main island, we'll include some island hopping ferry passes.
